## *The Editor's Riddle*

*Question: How do you get a goose out of a bottle without hurting the goose or breaking the bottle?*

Sometime or another in life you will encounter a similar riddle, the solution of which may appear physically impossible. However, with a positive attitude and a strong enough desire, you CAN get the goose out of the bottle without hurting the goose or breaking the bottle.

The first thing you must remember is that the mind can overcome physical "impossibilities." If you can envision some solution, the problem can be solved. Secondly, you must persist and not give in to the ridicule of others who cannot see beyond physical barriers. They will tell you that the riddle can only be solved through ultimate destruction. And, indeed, if such unimaginative people were to try to solve the problem, the goose and the bottle would both be hurt.

The key to this or any other riddle lies in never underestimating the power of the mind and will. If you can see a possible solution in your mind and care enough about the goose to give your time, effort, and consideration to the problem, the riddle can be overcome. The impossibilities and seeming barriers will disappear and you will reach a peace of mind. At this point, you can solve this or any other riddle and honestly say . . .

*Answer: There! It's out!*

## FALL

Could this little old road be luring me now  
Deep into autumn's fold,  
Through the glorious light of the noonday sun  
That illumines the trees of gold?

Through the vista that wanders and curves its way  
Along the dreaming hill  
Through a radiant wood of leaves and boughs  
That ring with the warblers' trill?  
Could this little old road be enticing me now  
Through the Indian summer heat,  
Where the meadows are sprawling with flowers and grass  
And the orchard is mellow-sweet?

Where the faraway hill stirs and glistens anew  
In the beautiful autumn glow?  
Could this little old road be beckoning now . . .  
My heart is eager, and I must go!

JOYCE MONTIGNY

Where do those little summer  
 roads  
 Run to that have no end,  
 The ones you ride and get lost  
 on,  
 The ones that twist and bend  
 Into the never-never lands  
 Of green trees and gazelle,  
 Those roads that sing a  
 cheerful song  
 And have a wishing well?  
 Where do those little summer  
 roads end?  
 Perhaps just where they start  
 . . .  
 In cool blue evenings,  
 mornings gold  
 Inside a dreaming heart!

*The Class of 1975 would like to thank Chavo Mihaic for sharing his senior year with the students at Windsor Locks High School. It has been an interesting as well as pleasurable experience having Chavo as an AFS student in our school. In the short time he has been here he has given us the opportunity to better understand the culture of another land.*

"Trouble with new cars that don't start, too many safety belts. Car by Mihaic, driver by Roth."

"Yo vivo aqui en Bolivia"

# Reflections Reflections

## Junior Prom 1974

" . . . And as we wind on down the road  
Our shadow taller than our soul  
There walks a lady we all know  
Who shines white light and wants to show  
How everything turns to gold.  
And if you listen very hard  
The tune will come to you at last  
When all are one and one is all,  
To be a rock and not to roll.  
. . . and she's buying a stairway to heaven."

Led Zeppelin
